# Enterprise

1. Select «Virksomhet» (enterprise)
2. Select «Har daglig leder» (has general manager)
3. Select one of the matches on the right side
4. Find a national identity number under the tab «Kildedata» (source data)

The screenshot displays the Tenor testdatasøk web application. The interface includes a header with the application name and search options (SØK, AVANSERT, LAGREDE SØK, KILDER). A left sidebar contains filters for 'PERSON' and 'VIRKSOMHET' (highlighted with a red box). Under 'VIRKSOMHET', the 'Har daglig leder' checkbox is selected and highlighted with a red box. The main area shows search results for 'Har daglig l...' with 131022 hits. Three results are visible: 'TYPISK VISSEN TIGER AS', 'BEMERKELSEVERDIG DISKRET TIGER AS', and 'SKYFRI PRODUKTIV TIGER AS'. A fourth result, 'MOTIVERT FANTASILØS TIGER AS', is partially visible. On the right, a detailed view for 'TYPISK VISSEN TIGER AS' is shown, with the 'KILDEDATA' tab selected and highlighted with a red box. This tab displays JSON data, including a 'person' object with a 'foedselsnummer' (national identity number) highlighted by a red box.

# Preparation of the test user

- The first time you log in, you must also log in to Altinn TT02 (<https://tt02.altinn.no>) to ensure that the user is activated for Altinn.
- When this has been done once, the user should be ready for use.
- The system ID must be registered for the organisation number as before.
- Altinn recommends that you change over to the REST interface and authenticate via the ID portal TestID.
- Authentication by system-generated Altinn PIN codes:
  - For the time being, you must use your own (Norwegian) mobile phone number to receive PIN codes from Altinn.
  - The old, fixed PIN codes will not work for Tenor users.
- It is also possible to delegate by following the ordinary Altinn process for this.

# Statement owners in the files

- You must search in Tenor for any persons and organisations intended to be statement owners in the files.
- Select “Person” or “Virksomhet” (enterprise) and select an option from the list.
- If the persons or enterprises require special qualities, you can employ Tenor’s search criteria to refine the search.
- You can export the search result as a file (CSV or JSON). Click on the three dots at the far right. Then click «Eksportere resultat» (export result). The maximum number of matches that can be exported at the same time is two hundred.

The screenshot displays the Skatteetaten Tenor search interface. On the left, there are tabs for 'PERSON' and 'VIRKSOMHET'. Below these, the 'Folkeregisteret' section includes filters for 'Identifikasjon og status' (with a search for '11 siffer'), 'Identifikatortype' (radio buttons for 'Fødselsnummer', 'D-nummer', and 'Fødselsnummer, har hatt d-nummer'), and 'Fødselsdato' (date range). The main search results area shows '1132134 treff'. Two results are visible: 'STRENG MANDARIN' with ID 52927400936 and 'TRIST BAGATELL' with ID 20815695349. On the right, a detailed view for 'STRENG MANDARIN' is shown, including a 'LAST NED SØKEDATA' button and a table with columns 'NØKKELINFORMASJON', 'RELASJONER', and 'KILDEDATA'. The table contains personal information such as 'Identifikator', 'Navn', 'Fødselsdato', 'Kjønn', 'Personstatus', 'Sivilstand', 'Adressebeskyttelse', and 'Bostedsadresse'. A red circle highlights a three-dot menu icon in the top right corner of the interface.
