

Refund of VAT from Norway to Foreign Businesses

Status

We're currently processing applications received in November 2018.

Updated application form, guidelines and website

As mentioned in the VATinfo March 2019, we do no longer require original sales documentation when you submit your application for refund of VAT. We now accept copies of invoices, credit memos and print-outs of electronic invoices received by email.

Therefore, we have now updated the application form, guidelines and the information on our website.

We ask you to please use the updated application form for any future applications. Information and application form are available [here](#).

Remember to tick the box under item 4 on the application form if you want us to return your invoices.

You must still submit the application form and supporting documents by post or courier.

Do not hesitate to contact us if you have any questions: VATrefund@skatteetaten.no

Amount of VAT refund requested

The total amount of VAT refund requested in the application should be rounded off to the nearest Norwegian krone (NOK).

Application deadline

Please be reminded that the deadline for applying for refund of VAT on goods and services delivered in 2018 is on **30 June 2019**.

Happy Easter!

Regards

VAT Refunds
