Tax Administration

Information about contracts and contractors (RF 1199)

About the form

All contracts and subcontracts (except from cabotage) awarded to an enterprise resident abroad or to a person resident abroad, resulting in an activity in Norway or on the Norwegian continental shelf, should be reported to the Tax Administration.

The obligation to report applies to any Norwegian or foreign business enterprise, both within private and public sector, awarding such contracts. Private individuals have no obligation to provide information.

Information is required in the case of contracts worth NOK 20,000 or more.

The reporting entity must submit information about its own contract with the contractor and any contracts awarded by its contractor to a subcontractor. The reporting entity should also give information about the main contractor in the actual contractual chain and his own client. The main contractor is defined as the first client in the contractual chain awarding a contract to a foreign contractor.

If you are reporting both your own contract with contractor and your contractor's contract with a subcontractor, please complete separate forms for each of the contracts.

Information about the contractor/subcontractor must be submitted as soon as possible after the contract has been entered into and no later than 14 days after the work in Norway has commenced.

If changes occur after the information has been submitted, corrected information must be submitted no later than 14 days after the change occurred.

When the contractor/subcontractor is a sole proprietorship, and the proprietor does not have a Norwegian national identity number or d-number, information must be submitted about the proprietor's date of birth, personal identity number in his/her country of residence, address, gender and nationality. A copy of a photo Identification paper, which also contains the person's name, date of birth, gender and nationality, must also be enclosed.

If the contractor/subcontractor does not have a Norwegian organisation number, you may enclose a certificate of registration from the authorities in the country where the enterprise is resident. For more information about registration of a Norwegian organisation number, see brreg.no.

A copy of the contract may be enclosed. It is sufficient to enclose the contract's description of the assignment, guarantee/liability conditions and terms of payment. It is not necessary to submit a copy of technical requirement specifications. All documents and enclosures submitted to the Tax Administration must be in Norwegian or English.

Failure to comply with the obligation to submit information can result in sanctions in the form of enforcement fines, or penalty charges, cf. the Tax Administration Act sections 14-1 and 14-7.

When two or more entities are obliged to report the same contract, they may agree that the reporting should be carried out by one of them. Such an agreement does not exempt the parties from enforcement fines or penalty charges.

The information can be submitted online via the portal for the assignment and employee register on skatteetaten.no. The forms can be printed from skatteetaten.no/assignmentregister.

For more information, see skatteetaten.no/assignmentregister. Questions regarding reporting pursuant to the Tax Administration Act section 7-6 can be directed to the Norwegian Tax Administration, (+47) 800 80 000 or oar@skatteetaten.no.
